

```
static void Main(string[] args)
{
    int i,j, k,l;
    Console.WriteLine("Please enter the range: ");
    int n = int.Parse(Console.ReadLine());
    for (i = 1; i <= n; i++)
    {
        for (j = 1; j <= n - i; j++)
        {
            Console.Write(" ");
        }
        for (k = 1; k <= i; k++)
        {
            Console.Write(k);
        }
        for (l = i - 1; l >= 1; l--)
        {
            Console.Write(l);
        }
        Console.WriteLine("\n");
    }
    Console.Read();
}
```
